* signifies canned beer

We prefer cans, given a choice, for the following reasons:

1. They are far better than the much-maligned cans of my youth. Non-tainting.
2. Better to recycle than glass. Better for the planet.
3. Cheaper and easier to store and transport than glass.
4. They protect beer from ultra-violet. UV makes beer go 'skunky'.
5. They cool more quickly in the fridge.
6. Less likely to fail than a bottle. Crown corks can develop defects.
7. Less messy if you drop one! Sometimes. And so long as you don't try to open it.
8. Erdinger Alkoholfrei seems to be switching from bottles to cans.
