

WHISKY

HIGHLAND MALTS

Aberlour, Speyside

Dating from at least 1826, this French owned (Chivas brothers) distillery produces soft, spicy, quite full flavoured malts. The 16 year old is matured in traditional oak casks and in sherry casks for added depth, and the a'bunadh cask strength version is a blend of young and old sherry aged whisky.

Ardmore, Speyside

Built in 1898, Adam Teacher established the distillery to ensure a good supply of whisky for Teachers blended whisky. Lying just below Knockandy Hill, between Inverness and Aberdeen, Ardmore was one of the last remaining distilleries to rely on coal powered fires to heat its stills and did not convert to steam 'til 2003.

Glenfiddich, Speyside

The standard product is the best selling malt in the world, still owned by the family that founded it. In 1963, in a market dominated by blended whisky, they had the vision to try marketing their single malt. This list would not exist without them. The Special Reserve is light, smooth and fresh. Caoran Reserve is

lightly smoky as it is aged in old Islay casks. The Solera Reserve adds a little fruit and chocolate. The Ancient Reserve is richer and mellower, and the new Toasted Oak is aged in small American whisky casks to allow maximum flavours to come from the wood.

Highland Park, Orkneys

Thought by many to be about as good as whisky can get. Michael Jackson (the important one that wrote superb books about beer and whisky and didn't sing songs about rats) describes it as having 'all the elements of a classic single malt: smokiness; maltiness; smoothness; roundness and fullness of flavour; and length of finish - lovely at any time. As a single malt, Highland Park develops to great ages'. I can add no more! Dark Origins is a new, non chill filtered core bottling that celebrates the early days of Magnus Eunson's illicit distilling on Orkney, back before the distillery was even founded in 1798. Magnus worked as a butcher and church official by day, but by night he was a legendary whisky smuggler and distiller outwitting the exciseman.

The Macallan, Speyside

Another of the superstar distilleries. The whisky's rich character is enhanced by the use of very small stills heated by gas burners, and ageing in sherry casks from Jerez. The Decades series are an attempt to recreate the differing flavours of those past decades. Dating back to 1824, Macallan can also be found in Famous Grouse. The 1824 series is a new no-age-statement whisky. They have done away with age-statements and instead focus on the colour of the whisky, the concept being that the older the whisky is the darker it will be. Regardless of how true this really is, it's certainly a great whisky packed with assertive vanilla and citrus flavours.
