* Nantwich Gin is made by Cheshire Botanicals in Nantwich. The final recipe was worked on during lockdown in the summer of 2020, and there is a distinct hint of summer in the character of the gin. The traditional botanicals are supplemented with lemon thyme, lavender and pink peppercorns.

** Three Wrens Gin is made on the Whitchurch Road at Combermere having moved from Cholmondeley in early 2022. They have a shop and visitor centre. Check online for their regular 'gin school' and 'tasting experience'. Well worth a trip out!
