* signifies canned beer

We prefer cans, given a choice, for the following reasons:

1. They are far better than the much-maligned cans of my youth. Non-tainting.
2. Better to recycle than glass. Better for the planet.
3. Cheaper and easier to store and transport than glass.
4. They protect beer from ultra-violet. UV makes beer go 'skunky'.
5. They cool more quickly in the fridge.
6. Less likely to fail than a bottle. Crown corks can develop defects.
7. Less messy if you drop one!
8. And Erdinger Alkoholfrei seems to be switching from bottles to cans.
